Duration	Assignment name/& brief description of main deliverables/outputs	Name of Project Client & Country of Assignment	Name of Associated Firm
1 July 2019 to August 2020	Assignment Name: Consultancy Services for Feasibility Study, Environmental & Social Impact Assessment , Detailed Engineering Design and Preparation of Tender Document for Construction of MTERA DAM BRIDGE and it approach road the BABATI TOWN bypass road to Bitumen Standard (15.5 km) Narrative Description of Project: The proposed alignment to bypass Mtera dam pass through midway of Iringa and Dodoma region on the border of Dodoma and Iringa region at Mtera reservoir. The proposed Bridge location is at the border while its proposed approach Roads one part is in Iringa region and the other part is in Dodoma region. The Iringa – Dodoma road crosses the Mtera Reservoir over a dam wall which was designed to carry a gross weight of 40 tones only and restricts passage of the vehicles on a single lane. For that reason, the project Aim to Construct the New Mtera Bridge (Expected to be around 350m main span with approach spans at both ends) to bypass the existing dam bridge so that to allow traffic to cross the Mtera reservoir safely and without constrains.	TANROADS  TANZANIA	Advanced Engineering Solutions Ltd.

2 July ,2019 to Ongoing	Assignment Name: Consultancy Services for Preparation of a Local Economic Development Strategy for Mwanza,Dodoma,Ilemela and Kigoma (Package 2): Narrative Description of Project: The objective of the assignment is to develop a local economic development strategy, action plans, projects and programs for the participating LGAs – Package 2 (i.e. Mwanza CC, Dodoma CC, Ilemela MC and Kigoma MC). This will be achieved through collection of all relevant data/information for future planning and analyzing them to identify future actions for the LGAs as well as other stakeholders.	The President's Office, The United Republic of Tanzania,  TANZANIA	A.R.S Progetti S.P.A (Italy)
3 August ,2019 to Ongoing	Assignment Name: Consultancy Services for Detailed Engineering Design and Preparation of Tender Document for Construction of MITOMONI BRIDGE and it approach road (8.2 km) to Bitumen Standard. Narrative Description of Project: The Government of the United Republic of Tanzania has completed detailed design of Likuyufusi – Mkenda road (124 km) to bitumen standard and The Mitomoni Bridge and its approach roads crosses Ruvuma River at Mitomoni village.Currently, no any drainage structure, and therefore the proposed bridge section is the bottleneck of the link connecting Likuyufusi – Mkenda and Unyoni – Liparamba – Mkenda roads linking Songea and Nyasa Districts.construction of Mkenda Mabey Bridge across Ruvuma River at Tanzania /Mozambique Border. The proposed Mitomoni Bridge will open a shorter link to Mbambay and reduce about 100km travel distance. Also it will provide a bypass at Mbinga Town Center for traffic going to Mbambabay, Unyoni and Litembo towns.	TANROADS  TANZANIA	Advanced Engineering Solutions Ltd.
